

# Awards for the 2006 CSPG/CSEG/CWLS Joint Convention

(Photos courtesy: Penny Colton)

**Best Geological Paper:** Gareth Jones and Yitian Xiao: Predicting Dolomite Geobodies: Exploitable Insights from Reactive Transport Models

**Best Geological Poster:** Warren Walsh, Cassandra Lee, Ben Kerr and Joseph Korol: Quantifying shale gas potential of the Triassic Montney and Doig formations, northeastern British Columbia.

**Best Geophysical Paper:** Rob Pinnegar: Time-Frequency Polarization Analysis and Filtering

*Honorable mention-1:* Eric Forgues, Julien Meunier, Christian Hubans and Rick Edwards: Steam Injection Seismic Monitoring Experiment

*Honorable mention-2:* Keith Hirsche and Francis Ma: Reducing Uncertainty in Time-lapse Seismic Interpretation for Thermal Applications

**Best Geophysical Poster:** Todd Mojesky, David LeMeur and Ali Karagul: Near surface anomalies and solutions

*Honorable mention-1:* Satinder Chopra, Kurt Marfurt and Vladimir Alexeev: Curvature attribute applications to seismic data

*Honorable mention-2:* Satinder Chopra and John Castagna: Seismic resolution and thin bed reflectivity inversion

**Best Student Paper** (geol or geophys): Renee Burton-Ferguson, Michael Enachescu and Richard Hiscott: Preliminary seismic interpretation and maps for the Paleogene-Neogene (Tertiary) succession, Orphan Basin

**Best Student Poster** (geol or geophys): Mark Radomski, Charles Henderson, Tom Moslow and Jon-Paul Zonneveld: Sedimentology, biostratigraphy and petrology of marine firm/hardgrounds: Middle Triassic Halfway Formation, west-central Alberta

## Awards for the 2006 CSPG/CSEG/CWLS Joint Convention

Continued from Page 42

### CSEG Honorable Mentions for best student paper:

- 1) Mostafa Naghizadeh and Mauricio Sacchi: FX and FK interpolation methods and further developments for irregularly spaced traces
- 2) Chuandong (Richard) Xu and Robert Stewart: Seismic Attenuation (Q) Estimation from VSP Data

### CSEG Honorable Mentions for best student poster:

- 1) Saleh M. Al-Saleh, Gary Margrave and John Bancroft: Designing wavefield extrapolators using a weighted least-squares with a transition band approach
- 2) Emmanuel Bongajum: Simultaneously acquiring 3D-3C well data during 3D surface seismic survey: a useful quality control tool

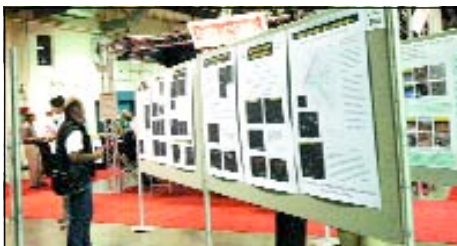

### Well Logging:

**Best paper:** Magnetic Resonance Imaging of Petroleum Cores Presented by Bruce Balcom

**Best student paper:** Petrophysical Evaluation of Carbonates from the Weyburn Oil Field using Synchrotron Xray Computed Microtomography Presented by Chad Glemser

**Best Core Presentation:** Kimberlite Volcanism on the Margin of the Lower Cretaceous Moosebar-Clearwater Seaway: Sedimentology and Volcanology of the Star Kimberlite, J.P. Zonneveld, Bruce Kjarsgaard, Larry Heaman, David McNeil & Kirsten Marcia

**Best Student Core Presentation:** Lateral Variability Within the Cadotte Shoreline Complex (Elmworth Gas Field): Breaking Out Depositional Packages Within an Extensive Sandstone-Conglomerate Body, Curtis Lettley

# Thank you to all the volunteers on the Organizing Committee who made the 2006 CSPG CSEG CWLS Joint Convention a success!
