...as overheard by the photographer – with dates added from history:

Peter Savage (President 1962) noted that in the 50's the CSEG "Newsletter" was also published in the Western Oil Examiner – until it folded in 1959 – then continued in the Canadian Oil and Gas Industries publication. (Note – the first CSEG Journal was published in 1966.) Roy Lindseth (President 1971) was SEG President when the SEG Annual Convention was in Calgary in 1977 – recognising CSEG's growth. The CSEG Newsletter was renamed the RECORDER in 1976. Ralph Lundberg (President 1988) remembered getting the "Newsletter" distributed on mimeograph type copies to the members – before the magazine format started in 1985. Oliver Kuhn (President 2006) started as RECORDER Technical Editor in 2001 and contributes to this day.
