

Student Membership... What's In It For Me? Forums For Learning

- Technical Talks
- Microseismic workshops
- Technical luncheons
- Lunchbox geophysics
- Doodletrain
- Webcasts
- CSEG lecture tour
- DISC lecture tour
- Convention

Networking Events

- Junior Geophysicists Forum
- Honorary Address
- GeoSkills

Non-Technical Social Events

- Curling (Doodlespiel)
- Golf (T-wave, Doodlebug)
- Ski (Ski-spreed)
- Squash
- 10km road race

Recorder Magazine

- Updates on technical and networking events
- University student newsletter

Linking Industry With Students

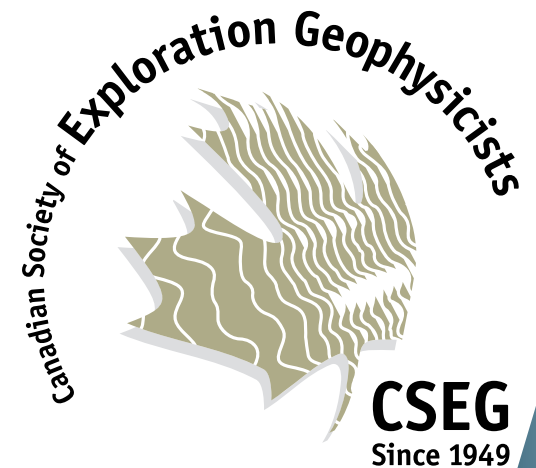

- University Outreach
- Inter-university geoscience conferences
- Sponsorship
- Distinguished lecturer series
- Academic scholarships and awards
- Mentorship program: mentorship@cseg.ca

Student Industry Field Trip

- A first hand experience of the different aspects of geophysics in the oil and gas industry.
- The CSEG University Student Outreach committee organizes an Industry Field Trip Day in the summer in Calgary.
- This is your chance to learn about the geophysical applications in the energy industry.
- Time will be spent with acquisition, processing and interpretation companies where you will get a chance to interact with professional Geophysicists.
- Breakfast and lunch will be provided along with a post-event mixer.

Junior Geophysicist Forum

- The JGF started in 2005 and is an informal mixer for geophysicists of all experience levels and students majoring in geophysics.
- This gives students and junior geophysicists an opportunity to network with established geophysicists.
- The event is intended as a technical networking event.
- All geophysicists or students enrolled in a university geophysics program are invited to attend. Attendance in the past has ranged from 175 to 200 geophysicists.

CSEG Mentorship Program

- CSEG Outreach believes this individualized opportunity to support geophysics students is an important part of their development as future geoscientists.
- Partnering students with professional geophysicists enables students to gain invaluable skills as well as to help ensure the industry will continue to grow and flourish in the years to come.
- The Mentorship Program will further the knowledge, skills and personal attributes necessary in helping students become successful geophysicists.

CSEG Scholarship Trust Fund

- Established in 1970, the CSEG Scholarship Trust Fund awards annual scholarships to deserving geophysics students from universities across Canada.

- These scholarships are funded primarily through generous corporate and individual donations, and also through interest generated by the memorial trust funds of Chris Elms, Ted Popilchak and Bob Won.

- To qualify for an award, students must be enrolled at a Canadian university in an academic program leading to an exploration geophysics career in industry, teaching or research.
- Scholarships are awarded on the basis of academic performance, financial need, interest in geophysics and extra-curricular activities.
